- **You will also have the satisfaction of knowing you are contributing to preserving the history of your favorite vehicle or vehicles.**

Auto Industries First Station Wagon circa 1929, on display at the Pioneer Village Museum

We thank you in advance for your adoption and your willingness to support the museum's efforts in the preservation of our vintage vehicles, our cultural and educational programs, interpretive exhibits, and other activities and events that share the historical significance of our extensive historical vehicle collection!

By adopting a vehicle, you will be helping to maintain the integrity of the vehicle. Your contribution will help to pay the insurance, make necessary repairs, and provide preventative maintenance.

You may even decide to publicize your vehicle on social media providing in depth information about it; its historical significance, along with its technological innovation and physical attributes, which in turn helps market the museum's reputation worldwide.

We hope that by having a connection with a vehicle in our collection, you will feel like part of the Pioneer Village Family. Our museum is the oldest vehicle museum in the country and one of the best in the nation.

By participating in the Adopt-A-Vehicle Program you will help to make the Pioneer Museum even more extraordinary!

1967 Ford Thunderbird offered the first 4-door option in that line with suicide doors displayed at the museum .

If you have any additional questions or comments about our Adopt-A-Car program, please call the museum office at (308) 832-1181.

You can Adopt-A-Vehicle by filling out the form on this brochure, or you can download a form for Adopt- A-Vehicle online at: <https://pioneervillage.com/>
